

CONCEPT SHEET - VOLUME 1

Q.	Concept Name	Page
1. Financial Policy & Corporate Strategy		
1	Sustainable Growth	1
2. Risk Management		
1	1 Day and 10 Days VAR	3
2	1 Day and 10 Days VAR	3
3	10 Days VAR	4
4	10 Days VAR	4
5	10 Days VAR	4
6	Weekly, Monthly, Semi-Annually	5
7	1 Year and 6 Year VAR	5
8	Allocated VAR	6
9	10 Days Portfolio VAR	6
10	5 Days Portfolio VAR	7
11	1 Day Portfolio VAR	7
12	Currency VAR	8
13	VAR-Reverse Calculation	9
14	VAR-Reverse Calculation	10
15	Z Score Probability	12
3. Advanced Capital Budgeting		
1	NPV - Probability Approach	14
2	Expected NPV and Standard Deviation	15
3	Coefficient of Variation	16
4	Expected NPV, Standard Deviation , Coefficient of Variation	16
5	Expected NPV and Standard Deviation	18
6	Expected NPV, Dependent Cash Flows	19
7	Expected NPV, Standard Deviation , Coefficient of Variation, Dependent & Independent Cash Flows	20
8	Expected NPV and Standard Deviation (Hillers Model)	22
9	Expected NPV and Standard Deviation (Hillers Model)	24
10	Expected NPV and Standard Deviation (Hillers Model)	26
11	NPV - Risk Adjusted Discount Rate (RADR)	28
12	NPV - Risk Adjusted Discount Rate (RADR)	29
13	NPV - Certainty Equivalent Approach (CEA)	30

14	NPV - Inflation Adjusted Nominal and Real Cash Flows	32
15	NPV - Inflation Adjusted Nominal and Real Cash Flows	33
16	NPV - Inflation Adjusted Nominal and Real Cash Flows	34
17	NPV - Sensitivity Analysis	35
18	NPV - Sensitivity Analysis	36
19	NPV - Sensitivity Analysis	39
20	NPV - Sensitivity Analysis	41
21	NPV - Sensitivity Analysis	43
22	NPV - Sensitivity Analysis	45
23	NPV - Decision Tree Analysis	46
24	Equated Annual Cost (EAC)	48
25	Equated Annual Cost (EAC)	49
26	Replacement Analysis	50
27	Replacement Analysis	50
28	Replacement Analysis	53
29	Optimum Replacement Cycle	55
30	Optimum Replacement Cycle	57
31	Project IRR & Equity IRR	58
32	NPV	61
33	NPV - Incremental Cash Flow	63
34	NPV	65
35	NPV - Probability Approach	66
36	NPV - Probability Approach	67
37	Standard Deviation and Coefficient of Variation	68
38	Standard Deviation and Coefficient of Variation	69
39	NPV - Risk Adjusted Discount Rate (RADR)	71
40	NPV - Certainty Equivalent Approach (CEA)	72
41	NPV - Inflation Adjusted Nominal and Real Cash Flows	72
42	NPV - Inflation Adjusted Nominal and Real Cash Flows	73
43	NPV - Simulation Analysis	75
44	NPV - Scenario Analysis	76
45	NPV - Decision Tree Analysis	77
46	Replacement Analysis	78
47	Optimum Replacement Cycle	79
48	NPV - Decision Tree Analysis	80
49	NPV – Ambiguous Question of Nov 24	82
50	MCQ – Case Scenario 1	85

4. Security Analysis		
1	Exponential Moving Average (EMA)	87
2	Exponential Moving Average (EMA)	88
3	Exponential Moving Average (EMA)	89
4	Exponential Moving Average (EMA)	90
5	Exponential Moving Average (EMA)	91
6	Run Test	92
7	Auto-Correlation Test	95
5. Security Valuation		
1	Walters Model	97
2	Walters Model	97
3	Walters Model	98
4	Walters Model	99
5	Walters Model & Optimum Dividend Payout	100
6	Walters Model & Optimum Dividend Payout	101
7	Walters Model & Optimum Dividend Payout	102
8	Walters Model & Optimum Dividend Payout	103
9	Walters Model & Optimum Dividend Payout	104
10	Gordon's Model	105
11	Gordon's Model	106
12	Gordon's Model	106
13	Gordon's Model & Walters Model	106
14	Gordon's Model	107
15	Gordon's Model & Walters Model	108
16	Earnings Model	109
17	Gordon's Model	110
18	Gordon's Model	111
19	Gordon's Model	112
20	Gordon's Model	113
21	Gordon's Model	114
22	Gordon's Model	114
23	Gordon's Model & Sustainable Growth Rate	115
24	Gordon's Model & Sustainable Growth Rate	117
25	Sustainable Growth Rate	119
26	Gordon's Model	120
27	Gordon's Model	121
28	Gordon's Model (Reverse Calculation)	122
29	Two Stage Dividend Discount Model	123

30	Two Stage Dividend Discount Model	123
31	Two Stage Dividend Discount Model	124
32	Two Stage Dividend Discount Model	125
33	Two Stage Dividend Discount Model	126
34	Five Stage Dividend Discount Model	127
35	Five Stage Dividend Discount Model	128
36	Five Stage Dividend Discount Model	129
37	Six Stage Dividend Discount Model	130
38	Maintaining Target Receipt by Selling Shares	131
39	Maximum Price of Equity Share	133
40	Maximum Price of Equity Share	134
41	H Model	135
42	IRR Method to Calculate Cost of Equity K_e	136
43	FCFE and FCFF	138
44	FCFE & Gordons Growth Model	140
45	CAPM	142
46	Enterprise Value	142
47	EV Multiple	143
48	EV Multiple	143
49	Value of Right & Ex Right Price of Shares	145
50	Value of Right	145
51	Value of Right (Reverse Calculation)	146
52	Value of Right & Ex Right Price of Shares	146
53	Ex Right Price of Shares	147
54	Value of Right & Ex Right Price of Shares	148
55	Value of Right & Ex Right Price of Shares	149
56	Value of Right - Rights On and Ex Right	150
57	Right Issue and Fresh Issue of Shares	151
58	Value of Right & Ex Right Price of Shares	154
59	Value of preference shares	155
60	YTM	155
61	YTM	156
62	YTM & YTC	156
63	Value of Bond and YTM	157
64	Value of Bond	157
65	Value of Bond	159
66	Value of Bond	160
67	Value of Bond and YTM	161
68	Value of Bond and Current Yield	162

69	Value of Bond and YTM	163
70	Value of Bond	164
71	Value of Bond	165
72	Value of Bond with Forward Rates	165
73	Value of Bond with Different Yields	166
74	Profit or Loss on Investment in Bond	167
75	Change in Principal and Interest Component	168
76	IRR Method of YTM	170
77	Realised YTM	172
78	Value of Bond, Duration and Volatility	172
79	Value of Bond, Duration and Volatility	174
80	Value of Bond, Duration and Volatility	176
81	Value of Bond, Duration and Volatility	177
82	Value of Bond, Duration and Volatility	179
83	Duration of Bond by Short Cut Method	180
84	Value of Bond, Duration and Volatility	181
85	Duration of Bond	183
86	Current Yield, YTM, Duration and Realised Yield	185
87	Duration of Bond (Reverse Calculation)	186
88	Bond Immunisation	188
89	Value of Portfolio of Bond and Preference Shares	189
90	Value of Portfolio of Bond and Preference Shares	190
91	Convexity	191
92	Convexity	191
93	Convexity	192
94	Convexity	192
95	Bond Immunisation	194
96	Bond Immunisation	197
97	Value of Convertible Debentures	198
98	Minimum Price of the Convertible Bond	198
99	Convertible Bonds	199
100	Convertible Preference Shares	200
101	Convertible Bonds	201
102	Convertible Bonds	203
103	Convertible Bonds	203
104	Convertible Bonds	204
105	Break Even MP & Ideal Conversion Period of Bonds	205
106	Convertible Bonds & Duration	206
107	Spread of Yield	207

108	Bond Refunding	208
109	Bond Refunding	209
110	Bond Refunding	210
111	Bond Refunding	211
112	Dirty Price and Clean Price of Bond	213
113	Interest Coverage Ratio, Capital Gearing Ratio	214
114	Maximum Debt that can be issued	216
115	Change in Interest Coverage Ratio	218
116	Money Market Instrument - Treasury Bill	219
117	Money Market Instrument - Treasury Bill	219
118	Money Market Instrument - Treasury Bill	219
119	Money Market Instrument	220
120	Money Market Instrument	220
121	Money Market Instrument - Commercial paper	221
122	Money Market Instrument - Commercial paper	222
123	Money Market Instrument - Commercial paper	223
124	Money Market Instrument - Commercial paper	224
125	Money Market Instrument - Commercial paper	225
126	Money Market Instrument - Commercial paper	226
127	Money Market Instrument - Commercial paper	226
128	Money Market Instrument - Certificate of Deposit	227
129	Money Market Instrument - Certificate of Deposit	227
130	Bond Value & Bond Equivalent Yield (Reverse Calculation)	228
131	Bond Value & Bond Equivalent Yield	229
132	Repo - Dirty Price , Haircut Adjustment	230
133	Repo - Amount of Borrowing and Buyback Price	231
134	Repo - Dirty Price, First Leg & Second Leg(Repayment)	231
135	Repo - Dirty Price, First Leg & Second Leg(Repayment)	232
136	Repo Rate, Dirty Price, Clean Price (Reverse Calculation)	233
137	MCQ – Case Scenario 1	234
138	MCQ – Case Scenario 2	235
139	MCQ – Case Scenario 3	236
6. Portfolio Management		
1	Expected Return and Standard Deviation	238
2	Expected Return & Standard Deviation, Buy Back of Equity Share	240
3	Portfolio Return and Portfolio Risk	241
4	Return and Risk of Security and Portfolio	242
5	Portfolio Risk when $R = 1, 0, -1$	243

6	Selection of High Return and Low Risk Securities	245
7	Risk Reduction through Diversification	245
8	Standard Deviation of Portfolio of Three Securities	247
9	Return, Standard Deviation, Covariance, Correlation and Portfolio Risk	247
10	Risk and Return of Portfolio	248
11	Risk and Return of Portfolio	250
12	Return of Portfolio	251
13	Risk and Return of Portfolio	252
14	Value Added or Active Return of Portfolio	256
15	Covariance & Correlation Coefficient	257
16	Expected Return, Variance, Standard Deviation and Beta	259
17	Beta using Correlation Analysis	260
18	Beta using Correlation Analysis	261
19	Beta Using Regression Analysis	262
20	Beta Using Regression Analysis	263
21	CAPM	265
22	CAPM	265
23	CAPM	266
24	CAPM	266
25	CAPM	267
26	Beta and CAPM	267
27	Standard Deviation of Market and Security	267
28	Beta and CAPM	268
29	CAPM and Gordon's Growth Model	270
30	CAPM and Gordon's Growth Model	271
31	CAPM and Gordon's Growth Model	271
32	CAPM and Gordon's Growth Model	272
33	CAPM and Gordon's Growth Model	273
34	CAPM and Gordon's Growth Model	274
35	CAPM and Gordon's Growth Model	275
36	CAPM and Gordon's Growth Model	276
37	CAPM and Two Stage Dividend Discount Model	276
38	CAPM, Dividend and Earnings Growth Model	277
39	CAPM with Inflation and Gordon's Growth Model	278
40	CAPM	280
41	CAPM	281
42	CAPM	282
43	CAPM, Beta & Change in Composition of Portfolio	283

44	CAPM, Beta & Change in Composition of Portfolio	285
45	CAPM, Beta & Change in Composition of Portfolio	286
46	CAPM	287
47	CAPM	289
48	CAPM	289
49	Portfolio Return and Portfolio Beta	289
50	CAPM and Portfolio Beta	290
51	Portfolio Beta	291
52	Portfolio Beta (Reverse Calculation)	292
53	Portfolio Beta	293
54	Portfolio Return and Portfolio Beta	295
55	CAPM and Portfolio Beta	296
56	Standard Deviation of Market and Security (Similar to Q27)	297
57	CAPM & Beta	298
58	CAPM & Beta	300
59	CAPM and Portfolio Beta	301
60	CAPM and Portfolio Beta	302
61	CAPM	303
62	Reducing & Increasing Portfolio Beta	304
63	Reducing & Increasing Portfolio Beta	306
64	Reducing Portfolio Beta	308
65	Return due to Net Selectivity, Returns due to Higher Risk Assumed (SIM)	309
66	Arbitrage Pricing Theory (APT)	311
67	Arbitrage Pricing Theory (APT)	311
68	Arbitrage Pricing Theory (APT)	312
69	Arbitrage Pricing Theory (APT)	313
70	Arbitrage Pricing Theory (APT)	314
71	Equation of Line	315
72	CAPM and Arbitrage Pricing Theory (APT)	316
73	Arbitrage Pricing Theory (APT)	318
74	Sharpe's Index Model (SIM)	320
75	Sharpe's Index Model (SIM)	321
76	Sharpe's Index Model (SIM)	322
77	Sharpe's Index Model (SIM)	323
78	Sharpe's Index Model (SIM)	324
79	Market Lines - Capital Market Line	325
80	Market Lines - Security Market Line	325
81	Market Lines - Security Market Line	326

82	Beta, Alpha and Security Market Line	327
83	Beta, Alpha and Security Market Line	328
84	Alpha and Beta of Security	330
85	Market Lines - Security Characteristics Line	331
86	Security Characteristics Line and Systematic and Unsystematic Line	333
87	Security Characteristics Line and Systematic and Unsystematic Line	334
88	Portfolio Evaluation Measures - Sharpe and Treynor	336
89	Portfolio Evaluation Measures - Jensen's Alpha	337
90	Portfolio Evaluation Measures - Sharpe and Treynor	338
91	Portfolio Evaluation Measures - Sharpe, Treynor, Jensen's Alpha	339
92	Portfolio Evaluation Measures - Sharpe and Treynor	340
93	11 Concepts in 1 Question	341
94	Portfolio Return and Portfolio Risk	344
95	Optimum Portfolio Theory	345
96	Portfolio Rebalancing Theory - CPPI	346
97	Portfolio Rebalancing Theory - Buy & Hold Policy, Constant Ratio Plan	348
98	Portfolio Rebalancing Theory - Buy & Hold Policy, Constant Ratio Plan	349
99	Portfolio Rebalancing Theory - Constant Ratio Plan	350
100	Minimum Variance (Risk) Portfolio	351
101	Minimum Variance (Risk) Portfolio	354
102	Minimum Variance (Risk) Portfolio	356
103	Sharpe's Index Model (SIM)	356
104	Stock Lending Scheme	357
105	Sharpe's Index Model (SIM)	359
106	Portfolio Evaluation Measures - Sharpe, Treynor, Jensen's Alpha	360
107	MCQ – Case Scenario	362
108	MCQ – Case Scenario	363
8. Mutual Funds		
1	Holding Period Return	365
2	Holding Period Return on Reinvestment of Dividend and CG	365
3	Holding Period Return on Reinvestment of Dividend and CG	366
4	Holding Period Return	367
5	NAV	367
6	Front End and Back End Load	368

7	Entry Load (Front End Load)	369
8	Mutual Funds Earnings	369
9	Mutual Funds Earnings	370
10	Mutual Funds Earnings & Investors Benefit	370
11	Effective Yield	371
12	Effective Yield	372
13	Effective Yield	373
14	Effective Yield (Reverse Calculation)	374
15	Effective Yield (Reverse Calculation)	375
16	Effective Yield (Reverse Calculation)	376
17	Dividend Reinvestment and Bonus Plan	378
18	Dividend Reinvestment and Bonus Plan	379
19	Dividend Reinvestment, Bonus & Growth Plan	381
20	Dividend Reinvestment (Reverse Calculation)	384
21	Dividend Reinvestment and Bonus Plan (Reverse Calculation)	385
22	NAV	388
23	NAV	389
24	NAV	391
25	NAV	392
26	NAV	393
27	NAV	394
28	NAV	396
29	NAV	397
30	NAV	398
31	NAV	400
32	NAV	403
33	NAV (Reverse Calculation)	404
34	NAV	405
35	NAV	406
36	NAV	407
37	NAV	408
38	NAV using Sharpe Ratio, Tryenor Ratio, Standard Deviation	409
39	NAV using Sharpe Ratio, Tryenor Ratio, Standard Deviation	411
40	Fund Manager's Fees	412
41	Return Before Management Expenses	413
42	Dividend Equalization Method	414
43	NAV (Reverse Calculation)	415
44	MCQ – Case Scenario 1	416
45	MCQ – Case Scenario 2	418

CONCEPT SHEET - VOLUME 2

9. Derivatives Analysis & Valuation

1	Short and Long Position in Futures	1
2	Forward Pricing	1
3	Forward Pricing	2
4	Forward Pricing	2
5	Forward Pricing	2
6	Futures Pricing	3
7	Futures Pricing	4
8	Futures Pricing	5
9	Futures Pricing (Reverse Calculation), Contango & Backwardation	5
10	Forward Pricing	7
11	Initial Margin and Mark to Market	8
12	Initial Margin and Mark to Market	9
13	Initial Margin and Mark to Market	10
14	Initial Margin and Mark to Market	11
15	Initial Margin and Mark to Market	13
16	Open Interest	13
17	Open Interest	14
18	Open Interest	14
19	Return on Short Selling	15
20	Arbitrage with Forward Contract	16
21	Arbitrage with Forward Contract	16
22	Arbitrage with Futures Contract	17
23	Arbitrage with Futures Contract	18
24	Arbitrage with Futures Contract	19
25	Arbitrage with Futures Contract	21

CONCEPT SHEET - VOLUME 3

Q. No.	Question	Page
Chapter 1: Financial Policy & Corporate Strategy		
1	Discuss the Roll of CFO	1
2	Explain - Processes of Strategic Decision Making. or Write short note on need for Financial Policy and Corporate Strategy.	2
3	What are the fundamental elements of a strategic financial framework, and how do they contribute to maximizing shareholder wealth?	2
4	What are the functions of Strategic Financial Management?	3
5	Discuss briefly the key decisions falling within the scope of financial strategy. Or What are the key decisions falling within the scope of financial strategy?	3
6	Enumerate 'Strategy' at different levels of hierarchy.	4
7	Discuss the three basic questions that corporate-level strategy should answer and explain how each contributes to the successful implementation of a strategy.	5
8	Write a short note on Financial Planning. Or Discuss the three major components of financial planning and how they contribute to achieving financial goals.	6
9	Interface of Financial Policy and Strategic Management.	7

10	How financial goals can be balanced vis-à-vis sustainable growth? Or Often, a conflict can arise if growth objectives are not consistent with the value of the organization's sustainable growth. Explain.	8
11	What makes an organization sustainable? State the specific steps. OR Explain the various requirements that makes an organisation sustainable.	9
12	What makes an organization financially sustainable? Or Explain the traits that an organization should have to make itself financially sustainable.	10
13	Explain the concept of Sustainable Growth Rate and also state assumptions of Sustainable growth model.	10
14	“Sustainable growth is important to enterprise long-term development”. Explain this statement in context of planning healthy corporate growth.	11
15	Are Sustainable Growth Rate and Internal Growth Rate being same concepts? Explain.	12
16	Explain how the sustainable growth model assists in managing the risks associated with additional financing. What options do mature firms have when their actual growth rates are less than their sustainable growth rates?	13

Chapter 2: Risk Management

1	Explain different types of risk faced by an organization. Risks are inherent and integral part of the business. Discuss	14
2	Explain different types of Financial Risk. Or List out the five methods for Identification and Management of Financial Risk. What are the parameters to identify the currency risk?	16
3	Explain how an organization interested in making investment in foreign country can assess Country Risk and mitigate this risk.	21
4	Explain the main risk that can be faced by an overseas investor.	21
5	Explain briefly the parameters to identify the currency risk.	21
6	Evaluate the major risks to which TRC Ltd. is exposed to.	22
7	What is Financial Risk? Explain how it can be viewed from different point of views. How do you evaluate the Financial Risk?	23
8	Describe Value at Risk and its application. Or Explain the Significance of VAR.	24
9	Explain the term ‘Cyber Risk’.	25

Chapter 3: Advanced Capital Budgeting Decisions

1	Investment projects are exposed to various types of factors, what are those factors	26
2	Discuss the Impact of Inflation on Capital Budgeting Decisions	26
3	Discuss the Impact of Change in Technology on Capital Budgeting Decisions	26
4	How to Incorporate the Impact of Change in Technology in Capital Budgeting Decisions	27
5	Discuss the Impact of Change in Government Policies on Capital Budgeting Decisions	27
6	Investment projects are exposed to various degrees of risk. Discuss	28
7	What are the main Reasons for adjustment of Risk in Capital Budgeting decisions?	28
8	Discuss the internal and external factors that affect capital budgeting decisions. Provide examples for each type of factor and explain their potential impact on investment projects.	28
9	Explain the importance of variance and standard deviation in capital budgeting decisions. How do these concepts help in assessing the risk and profitability of investment proposals?	30
10	Discuss briefly the concept of Coefficient of Variation	31
11	Write Short Notes on Risk Adjusted Discount Rate (RADR) and Certainty Equivalent Approach	31
12	What are the advantages and disadvantages of Certainty Equivalent Method?	33
13	Certainty Equivalent Method is superior to Risk Adjusted Discount Rate Method. Explain	33
14	Write Short Notes on Sensitivity Analysis	33
15	What are the advantages and disadvantages of Sensitivity Analysis	34
16	Write Short Notes on Scenario Analysis	34
17	Differentiate between Sensitivity Analysis and Scenario Analysis	35
18	Write Short Notes on Simulation Analysis	36
19	What are the advantages and disadvantages of Simulation Analysis	37
20	Write short notes on Decision Tree Analysis	37
21	Write short notes on Adjusted Present Value	38
22	Write a note on project appraisal under inflationary conditions.	38

23	Explain the concept 'Zero date of a Project' in project management.	40
Chapter 4: Security Analysis		
1	What are the two main approaches to Security Analysis?	41
2	What is the difference between Fundamental & Technical Analysis?	41
3	What are the key variables an investor must monitor for fundamental analysis?	42
4	Write Short notes on Company Analysis & factors affecting company analysis.	42
5	What are the techniques used in Company Analysis?	43
6	Describe the factors affecting Industry Analysis. Write Short notes on Industry Analysis and factors affecting industry analysis.	43
7	What are the techniques used in Industry Analysis?	44
8	Explain the factors affecting Economic Analysis. Write Short Note on economic analysis & factors affecting economic analysis.	45
9	Discuss the various techniques used in economic analysis. Or Explain the various indicators that can be used to assess the performance of an economy.	45
10	Write short notes on Technical Analysis.	46
11	Describe the concept of 'Evaluation of Technical Analysis'.	47
12	Technical Analysis is based on the following assumptions. Explain.	48
13	Technical analysis is based on which of the three principles? Or Describe briefly on which principles Technical Analysis is based	48
14	In a rational, well ordered and efficient market, technical analysis may not work very well". Is it true? List out the reasons for this statement regarding Technical Analysis.	49
15	Explain Dow Theory.	50
16	Explain Timing of Investment Decisions as per Dow Jones Theory.	51
17	Explain Elliot Wave Theory.	52
18	Explain Random Walk theory.	53
19	What conclusions were drawn from the Random Walk Theory that led to the evolution of Efficient Market Hypothesis	53
20	Explain the Efficient Market Theory and what are major misconceptions about this theory?	54

21	Explain three forms of Efficient Market Hypothesis	55
22	Mention the various challenges to the Efficient Market Theory.	55
23	Explain the different levels or forms of Efficient Market Theory.	56
24	Discuss the Empirical Evidence on Weak form Efficient Market Theory	57
25	Discuss the Empirical Evidence on Semi-Strong form Efficient Market Theory	59
26	Discuss the Empirical Evidence on Strong form Efficient Market Theory	59
27	Explain various “Market Indicators”.	60
28	In an efficient market, technical analysis may not work perfectly. However, with imperfections, inefficiencies and irrationalities, which characterizes the real world, technical analysis may be helpful. Critically analyze the statement.	62
29	Write short note on Anticipatory Surveys.	63
30	Write short note on Economic Model Building Approach.	63
31	Explain “Charting Techniques”.	64
32	Explain “Line Chart”.	64
33	Explain “Bar Chart”.	65
34	Explain “Japanese Candlestick Chart”	66
35	Explain “Point and Figure” Chart.	67
36	Explain in brief “Support and Resistance” level.	67
37	Write the names of the different price patterns.	68
38	Write short notes on “Channel” Price pattern	69
39	Write short notes on “Wedge” pattern	69
40	Write short notes on “Head and Shoulder” pattern	70
41	Write short notes on	71
42	Write short notes on “Gaps” pattern	73
43	Explain Buy and Sell Signals Provided by Moving Average Analysis	74
44	Write Short Notes on Moving Averages	75

Chapter 5: Security Valuation

1	Why is understanding asset valuation important for investment decisions, and what are the core principles of asset valuation?	77
---	---	----

2	Briefly discuss following concepts used in Security Valuation	77
3	How the discount rate is selected in equity valuation, and why are nominal cash flows and discount rates used?	78
4	What are the approaches used in Equity Valuation?	79
5	Discuss the Dividend Based Model for Equity Valuation	79
6	Discuss the Earnings Based Model for Equity Valuation	81
7	Discuss the Cash Flow Model of Equity Valuation	82
8	Discuss the FCFF Model of Equity Valuation	83
9	Discuss the FCFE Model of Equity Valuation	84
10	Why FCFE Model of Equity Valuation is better than Dividend Based Model?	84
11	What is Enterprise Value?	85
12	Discuss Enterprise Value Multiples. What is an Enterprise Multiple?	86
13	Write short notes on Zero Coupon Bonds.	87
14	Explain factors that affect Bond's Duration	88
15	Why should the duration of a coupon carrying bond always be less than the time to its maturity?	88
16	Discuss the Structure of Bonds.	88
17	What is the Bond Value Theorem?	89
18	What is Convexity and how it is adjusted with the duration?	89
19	Modified Duration is a proxy not an accurate measure of change in price of a Bond due to change interest rate. Discuss.	90
20	Name the types of Term Structure Theories?	91
21	What is Bond Immunization?	92
22	Explain the Effects of Bond Immunization?	92
23	A portfolio is immunized when its duration equals the investor's time horizon. Explain	93
24	How to Value Warrants?	94
25	Write Short Notes on Money Market Instruments	95
26	Define any four Pre-conditions for an Efficient Money Market.	95
27	What is money market? What are its features? What kind of inefficiencies it is suffering from?	96
28	Distinguish between Money market and Capital Market.	97
29	Write a short note on Call/Notice Money	98
30	Write a short note on Treasury Bills	99

31	Write a short note on Commercial Paper.	99
32	Write a short note on Certificate of Deposit.	100
33	What are a Repo and a Reverse Repo? OR Repo and a Reverse Repo are important tools in the hands of Reserve Bank of India to manage liquidity. Discuss.	100
34	Differentiate between Repo and Reverse Repo or What are the major differences between Repo and Reverse?	101
35	Discuss the role of Valuers OR Discuss the statutory purposes for which valuations by valuers are required in various financial and business contexts. What are some key scenarios where valuation is mandated by law?	102
36	Discuss the responsibilities of Valuers OR Write a short note on Model Code of Conduct for Registered Valuers	103
37	What precautions should a valuer take before accepting any valuation assignment?	104
Chapter 6: Portfolio Management		
1	Write a short note on Process of Portfolio Management	105
2	Write short note on Factors affecting investment decisions in portfolio management.	106
3	Briefly explain the objectives of “Portfolio Management”.	106
4	Write short note on Traditional Approach of Portfolio Management	107
5	Risks are inherent and integral part of the market. Discuss.	108
6	Discuss the various kinds of Systematic and Unsystematic risk?	109
7	Distinguish between Systematic Risk and Unsystematic Risk.	110
8	Write short note on Diversification in Portfolio Management	110
9	Write a short note on Modern Portfolio Theory or Write a short note on Markowitz model of Risk Return Optimization.	111
10	State the assumptions of Markowitz Model or Modern Portfolio Theory	112
11	What is Efficient Frontier?	113
12	Interpret the Capital Asset Pricing Model (CAPM) and its relevant assumptions.	113
13	What are the Advantages and Limitations of CAPM?	115
14	Write a short note on Arbitrage Pricing Theory.	115
15	Write a short note on Portfolio Evaluation Measures or How to measure the performance of a portfolio or security? or Write a short note on Sharpe Ratio, Treynor Ratio, Jensen’s Alpha	116

16	Write a short note on Portfolio Rebalancing Theories or Write a short note on Buy and Hold Policy or Write a short note on Constant Mix Policy or Constant Ratio Plan	117
17	Explain the strategy of Portfolio rebalancing under which the value of a portfolio shall not below a specified value in normal market conditions.	118
18	Make a comparative evaluation of Portfolio Rebalancing Theories	119
19	Write a short note on Active and Passive Portfolio Strategy	119
20	Explain different types of Asset Allocation Strategies.	122
21	Explain the process involved in Fixed Income Portfolio.	122
22	What methods are involved to calculate the return of Fixed Income Portfolio?	123
23	Discuss about the fixed income portfolio management strategy.	123
24	Write short note on factors affecting decision of investment in fixed income securities.	125
25	What is Alternative Investment?	126
26	What are the features or characteristics of Alternative Investment?	126
27	What are the different types of Alternative Investments?	127
28	What makes the Real Estate Valuation complex?	127
29	What approaches are used for Real Estate Valuation?	128
30	Explain Asset Allocation Strategies.	128
31	Discuss the various forms of gold investment available to investors, highlighting their advantages and limitations compared to traditional gold jewellery investment.	129
32	What is Distressed Securities?	130
33	What types of risk has to be analysed before investing in Distressed Securities?	130
34	Write short notes on Capital Market Theory	130
Chapter 7: Securitization		
1	Explain Debt/Asset Securitization	133
2	Explain the various features of Securitization.. OR “The process of securitization can be viewed as process of creation of additional financial product of securities in the market backed by collaterals.” What are the other features? Describe.	133

3	Explain the benefits of securitization from the prospective of both originator as well as the investor. OR “Securitisation is beneficial from the angle of various parties involved in it”. Explain.	134
4	Distinguish between Primary participants and Secondary participants in securitization.	135
5	Discuss briefly the steps in securitization mechanism.	137
6	Explain the pricing of the Securitized Instruments. Or “While pricing the securitized instruments, it is important that it should be acceptable to both originators as well as to the investors”. Explain.	138
7	Describe various securitization instruments. Or Describe the concept of ‘Stripped Securities’.	138
8	Differentiate between PTS and PTC. Distinguish between Pass Through Certificates (PTC) and Pay Through Securities (PTS).	141
9	Describe the problems faced in the growth of Securitization of instruments especially in Indian context.	142
10	What are the various types of risks involved in a securitization transaction, and how do they impact investors at different stages of the transaction?	143
11	Discuss the Concept of Blockchain OR Write Short Notes on Distributed Ledger Technology (DLT)	144
12	Explain the Applications of Blockchain	144
13	What are the Risks associated with Blockchain	145
14	Tokenization to some extent resembles the process of Securitization. Explain the term “Tokenization” and also illustrate the similarities between Tokenization and Securitization.	146
15	While in securitization the securities issued by SPV are backed by the loans and receivables the CDOs are backed by pool of bonds, asset backed securities, REITs, and other CDOs. Describe the main types of risk associated with investment in CDOs.	147
16	Write Short Notes on Securitization in India	148
Chapter 8: Mutual Funds		
1	What is Mutual Fund?	149
2	What are the Advantages of investing in Mutual Funds?	150
3	What are the Drawbacks of Mutual Fund?	151

4	Differentiate between ‘Off-shore funds’ and ‘Asset Management Mutual Funds’.	152
5	Distinction between Open ended schemes and Closed ended schemes	152
6	Write Short Notes on Classification of Mutual Funds Or Index Funds is one of the Special Funds. What are other funds in Special Funds category?	153
7	Write a short note on Direct and Regular Plans of Mutual Funds. Also explain the difference between both	155
8	Write a short note on ‘Money Market Mutual Fund’	156
9	Write a short note on factors affecting the selection of Mutual Funds.	156
10	Circumstances that indicate that it is time for an investor to exit a mutual fund scheme.	157
11	Explain the different methods for evaluating the performance of a mutual fund.	158
12	What is Entry and Exit Load?	158
13	What is Trail Commission?	159
14	What is Expense Ratio in Mutual Funds?	159
15	Side Pocketing enhances the value of the Mutual Fund. Do you agree? Briefly explain the process of side pocketing. EXPLAIN the concept of side pocketing in mutual funds.	160
16	What is Tracking Error?	160
17	Describe Tracking error. List the reasons for it. Or Explain how to measure divergence or deviation of return of a Mutual Fund Scheme that replicates any benchmark Index.	161
18	What are Exchange Traded Funds?	162
19	What are Fixed Maturity Plans?	163
20	The idea of Quant Fund is stock-picking free from human intervention. Discuss.	163
21	Discuss different types of Diversified Equity Funds	164
22	What are the two options for earning Income from Mutual Fund Schemes	165
23	Write short notes on Equity Linked Savings Scheme	166
24	Write short notes on 1. Sector Funds 2. Thematic Funds 3. Arbitrage Funds 4. Hedge Funds 5. Cash Funds	166
25	Quantitative and Qualitative Parameters can be used to evaluate the performance of any Mutual Fund. Discuss	168
26	Discuss the role of Fund Managers in Mutual Fund	169
27	Discuss the role of FIIs in Mutual Fund	170

Chapter 9: Derivative Analysis & Valuation

1	What are derivatives? Who are the users and what are the purposes of use?	171
2	What is the importance of Underlying in Derivatives? Or What is the significance of an underlying in relation to derivative Instruments?	171
3	Distinguish between Cash and Derivative Market.	172
4	Explain cash settlement and physical settlement in derivative contracts and their relative advantages and disadvantages.	172
5	Distinguish between: Forward and Futures contracts.	173
6	What are the features of Futures Contract?	175
7	Explain Initial Margin and Maintenance Margin	175
8	Write a short note on Marking to Market	176
9	What are the types of Future Contracts?	177
10	Explain Going Long and Going Short on Futures.	179
11	What are the advantages of Futures trading vs Stock Trading? Or What are the reasons for Stock Index futures becoming more popular financial derivatives over Single Stock Futures segment in India?	181
12	Explain Cost of Carry Model or Define Contango and Backwardation/Inverted Market	182
13	Write a short note on Options Contract	183
14	Meaning of open interest and its relevance in the stock market.	185
15	Explain different payoffs scenario in option contracts for 1. Call Buyer 2.Call Seller 3.Put Buyer 4.Put Seller	186
16	Write a short note Intrinsic Value and Time Value of Option	190
17	Distinguish between Intrinsic value and Time value of an option.	191
18	Distinguish between future contract and option contract. Difference between Stock Futures and Stock Options	192
19	“Investing in Stock Futures differs from investing in Equity Options in several ways”. Explain.	192
20	What are the factors affecting value of an option? OR Explain briefly the various factors that affect the value of an Option.	193
21	What is European Option and American Option	195
22	What are the Option Valuation Techniques	197
23	What are the assumptions of Black Scholes Model?	197
24	Write a short note on Option Greeks	197

25	Write a short note on Exotic Options	199
26	Difference between Traditional Options and Exotic Options	199
27	What are the different types of Exotic Options?	200
28	Write a short note on Credit Derivatives	201
29	Write a short note on Collateralized Debt Obligation (CDOs). What are the types of CDOs and risk involved in CDOs	202
30	Write a short note on Credit Default Swaps (CDS)	204
31	What are the main Features of Credit Default Swaps (CDS)	204
32	Explain Uses of Credit Default Swaps (CDS)	205
33	Explain Parties of Credit Default Swaps (CDS)	205
34	How Credit Default Swaps (CDS) are Settled	206
35	Discuss Real Options	206
36	What are the differences between Financial Options and Real Options. Explain how Real Options are different from Financial Options	207
37	What are the different types of Real Options	208
38	Write a short note on Commodity Derivatives	209
39	Write a short note on Necessary conditions to introduce 'Commodity Derivatives'	210
40	What are the advantages of Commodity Markets?	211
41	What are Commodity Futures?	211
42	What is Commodity Swap?	212
43	What are the Types of Commodity Swaps?	212
44	"Commodity swaps are characterized by some peculiarities". Explain. Or Write a note on Valuing Commodity Swaps.	213
45	Write a note on Hedging with Commodity Derivatives.	213
46	Write a note on Weather Derivatives.	214
47	What are the challenges faced in Pricing Weather Derivatives	215
48	Write short notes on Electricity Derivatives	216
49	What lessons can be learned from historical derivative mishaps, and how can organizations apply these lessons to manage financial risks effectively?	217
Chapter 10: Interest Rate Risk Management		
1	Explain how interest rates are determined?	219
2	What is Interest Rate Risk?	219
	What are benchmark rates, and how have they evolved from LIBOR to Alternative Reference Rates (ARRs) in managing interest rate risk?	

3	Discuss their significance and provide examples from different regions.	220
4	Explain the significance of LIBOR in international financial transactions.	221
5	What are the various types of Interest Rate Risk?	221
6	Write short note on Gap Exposure and its Limitations	222
7	Write short note on Basis Risk	223
8	Write short note on Embedded Option Risk	224
9	What is Yield Curve Risk?	225
10	What is Price Risk and Reinvestment Risk?	226
11	What is Net Interest Position Risk?	227
12	What methods are used to Measure the Interest Rate Risk?	227
13	Explain the methods of Hedging Interest Rate Risk	227
14	What is Asset and Liability Management? Or Briefly explain Asset and Liability Management (ALM).	229
15	Write Short note on Forward Rate Agreement or What are the main features of Forward Rate Agreement (FRA)?	230
16	Write short notes on Interest Rate Futures	231
17	What do you mean by the term 'Cheapest to Deliver' in context of Interest Rate Futures? Or Explain in brief the following:	233
18	Write short notes on Interest Rate Options – Cap, Collars and Floors	233
19	Give the meaning of Caps, Floors and Collar options with respect to Interest.	236
20	Write short note on Interest Rate Swaps	236
21	Explain the meaning of the following relating to Swap transactions: (i) Plain Vanilla Swaps (ii) Basis Rate Swaps (iii) Asset Swaps (iv) Amortizing Swaps Explain the Types of Interest Rate Swaps	238
22	Define Interest Rate Swaption. State its principal features.	239
23	What are the uses of the Swaptions?	240
24	What are the Categories of Swaption Styles?	240

Chapter 11: Foreign Exchange Exposure and Risk Management

1	What are the Market Participants in Forex Market?	241
2	What are the factors affecting exchange rate determination?	241
3	What are the techniques used in Exchange Rate Forecasting?	242
4	What do you mean by Merchant Rates?	242

5	Write short notes on PIPS	243
6	Discuss the role of SWIFT in Foreign Exchange	243
7	Write short notes on Payment Gateways	245
8	What are the benefits of Payment Gateways	245
9	Explain the Challenges that are hampering the growth of Payment Gateways	249
10	What do you mean by American Term and European Term	249
11	Write a short note on Interest Rate Parity Theory	247
12	Briefly discuss the concept of Purchasing Power Parity.	247
13	Write short note on International Fisher Effect	248
14	Discuss points of Comparisons of PPP, IRP and IFE Theories.	249
15	Operations in foreign exchange market are exposed to a number of risks. Or Write a short note on types of risks foreign exchange dealings are exposed to	250
16	What are the key reasons for the importance of foreign exchange risk management, and how does it benefit businesses?	250
17	How do exporters use natural hedging strategies to mitigate transaction exposure risk, and what are the benefits of using short-term foreign currency loans like PCFC and FCNR B Loans?	251
18	Write a short note on Leading and Lagging in context of forex market	252
19	Explain Meaning and Advantages of Netting. “Netting helps in minimizing the total value of intercompany fund flows”. Explain.	253
20	Write short note on Exposure Netting	254
21	Write a short note on Money Market Hedging. State its Advantages and Disadvantages	255
22	Explain the strategies for Exposure Management	255
23	Write a short note on Nostro, Vostro and Loro Account	257
24	All dealings in Foreign Exchange effect the Exchange Position whether delivery has taken place or not, but Cash Position is effected only when actual delivery has taken place. Explain.	258
25	Explain the various technique explicitly does not involve transaction costs and can be used to offset the foreign exchange exposure completely or partially.	259

Chapter 12: International Financial Management

1	Discuss Project vis a vis Parent Cash Flows. OR There exists a vast difference between Project and Parent cash flow? What are these factors? Briefly discuss.	261
2	Explain complexities involved in International Capital Budgeting.	262
3	Explain the problems that are faced in International Capital Budgeting Decision and how these can be overcome. Or Explain the problems affecting affecting Foreign Investment Analysis	262
4	Write short notes on American Depository Receipts	264
5	Write short notes Global depository receipts.	265
6	What are the characteristics of GDR?	266
7	What is the impact of GDRs on Indian Capital Market?	266
8	Write short notes on Debt route for foreign exchange funds	267
9	Describe the salient features of Foreign Currency Convertible Bonds (FCCBs).	268
10	What are the Advantages of Foreign Currency Convertible Bonds (FCCBs)?	268
11	What are the Disadvantages of Foreign Currency Convertible Bonds (FCCBs)?	269
12	Write short notes on Euro Convertible Bonds	270
13	Write short notes on Instruments of International Finance	270
14	Write short notes on External Commercial Borrowings. OR External Commercial Borrowings (ECBs) are becoming an important source of financing. Discuss briefly its different aspects.	271
15	What are P-notes? Why it is preferable route for foreigners to invest in India?	272
16	Write short note on benefits of International Portfolio Investment.	272
17	What are the issues that need to be considered by an Indian investor and incorporated within the Net Present Value (NPV) model for the evaluation of foreign investment proposals?	273
18	What do you mean by International Financial Centre (Gift City)? What are the benefits of IFC?	274
19	What are the key constituents of an International Financial Center (IFC)	274
20	Write short notes on GIFT City	275
21	Write short notes on Sovereign Wealth Funds (SWFs)	276
22	Discuss the complexities involved in International Working Capital Management	277
23	Write a short note on Multinational Cash Management	278

24	What are the main objectives of International Cash Management?	279
25	How the centralized cash management helps MNCs?	279
26	What are the ways for optimization of Cash Inflows?	280
27	Discuss the investment of excess cash or surplus by MNCs? The technique of the optimizing cash flow movements and minimizing the total volume of inter-company fund flow with the combined efforts of the subsidiaries is the need of the hour. Discuss.	281
28	Write a short note on International Inventory Management? Or What do you mean by Stock Piling?	281
29	Write a short note on International Receivables Management?	282

Chapter 13: Business Valuation

1	What is the need for the proper assessment of an enterprises value?	283
2	Write a note on Chop Shop Method of Valuation.	283
3	Explain how Cash flow-based approach of valuation is different from Income based approach and also explain briefly the steps involved in this approach.	283

4	Write Short note on Enterprise Value Model for Corporate Valuation	284
5	Relative Valuation is the method to arrive at a 'relative' value using a 'comparative' analysis to its peers or similar enterprises. Elaborate this statement. Or Write a short note on Relative Valuation	285
6	Relative Valuation approach is a significant departure from Intrinsic Value approach. Explain.	285
7	State the assumptions of Relative Valuation.	286
8	Write short note Economic Value Added	286
9	Write short note Market Value Added or "Market Value Added is an attempt to resolve some of the issues involved in Economic Value Added" Explain this statement	287
10	Differentiate between Economic Value Added (EVA) and Market Value Added (MVA)	288
11	Write short note Shareholders Value Analysis	288
12	What is the difference between Going Concern and Non-Going Concern Valuation, and how does each approach affect the valuation of a business entity?	289

13	What are the challenges involved in valuing distressed companies, and why are conventional valuation methods like Discounted Cash Flow (DCF) not suitable for such firms?	290
14	What are the steps of valuation of distressed firm?	291
15	Why do traditional valuation methods such as the income approach, asset approach, and market approach often fail when applied to new- age startups, and what are the specific challenges associated with each method?	291
16	What are the Key Drivers in Valuation of Start-ups	292
17	What are the Methods of Valuing Startups?	292
18	Write short notes on Berkus Approach of Valuing Startups?	293
19	Write short notes on Cost-to-Duplicate Approach of Valuing Startups?	294
20	Write short notes on Comparable Transactions Method of Valuing Startups?	295
21	Write short notes on Scorecard Valuation Method of Valuing Startups?	296
22	Write short notes on First Chicago Method of Valuing Startups?	298
23	Write short notes on Venture Capital Method of Valuing Startups?	299
24	What are Digital Platforms, and how can they be categorized based on the services they provide? Additionally, explain the key considerations in the valuation of digital platforms.	301
25	What are some examples of drivers of revenue for different types of digital platforms	302
26	Write short notes on VALUATION OF PROFESSIONAL/ CONSULTANCY FIRMS	303
27	What is the ESG framework, and what are its key components? How does ESG impact a company's strategy and value creation?	304
28	What are the recent developments in ESG, and how can ESG factors be incorporated into business valuation? Explain the impact of environmental, social, and governance factors on expected cash flows.	305
Chapter 14: Mergers, Acquisitions & Corporate Restructuring		
1	Define 1. Mergers 2. Acquisitions 3. Corporate Restructuring	307
2	Difference between Mergers, Acquisitions and Corporate Restructuring	308
3	Write short note on the types of mergers.	309

4	Unrelated companies come together to form an entity. What this relationship is called? Discuss briefly the features of this entity.	310
5	What are the common reasons for mergers and acquisitions (M&A), and how do they create value for the combined entity? Provide examples of synergies and other factors that drive M&A.	311
6	Explain how mergers, acquisitions, and business restructuring can unlock value for companies.	312
7	Synergy in the context of Mergers and Acquisitions or What is commercial meaning of synergy and how it used as a tool when deciding Merger and Acquisitions?	313
8	What key issues are addressed in the financial evaluation of a target company during an acquisition?	314
9	What are the key considerations and strategies involved in FINANCING AN ACQUISITION, and how do companies decide between using cash, stock, or a combination of both?	314
10	What are the problems for mergers and acquisitions in India?	315
11	Non-compete fee in mergers and acquisitions.	315
12	Explain the reasons why mergers fail to achieve their objective	316

13	Merger Failures or Potential Adverse Competitive Effects.	317
14	Explain Meaning and reasons for Reverse Stock Split up	317
15	What are the objectives for which amalgamation may be resorted to?	318
16	Explain the various Takeover Strategies.	318
17	How to defend a Takeover Bid (Antitakeover strategy)?	320
18	What is take over by reverse bid or Reverse Merger? When does it take place? Or Can a small company takeover a big company. What are the conditions for a company to be termed as big company?	321
19	What are the benefits of the Reverse Merger?	322
20	Explain the term “Demerger”.	322
21	What is Divestiture and what are the reasons for divestment or demerger?	323
22	Explain the reason for selling the company or Explain the sell side imperatives.	323
23	Explain the different ways of demerger or divestment. OR Write a short note on Demerger or Division of Family managed business.	324

24	Write a short note on Financial Restructuring	326
25	Discuss the various terms covered under Ownership Restructuring.	327
26	Explain the term 'Buy-Outs'.	329
27	What is the difference between Management Buy Out and Leveraged Buyout? State the purpose of a leveraged buyout with the help of an example.	330
28	Equity Curve Outs Vs. Spin Off	331
29	Write short note on Bought Out Deals (BODs).	331
30	Write a note on buy-back of shares by companies and what is the impact on P/E Ratio upon buy-back of shares?	332
31	State the consequences of Equity Buy Back.	333
32	What are the considerations and challenges in business valuation regarding premiums and discounts, and how do timing and market conditions affect valuation?	333
33	What are the five principal steps in a successful M&A programme.	335
34	Write short note on Cross Border M&A. OR “Cross-Border M & A is a popular route for global growth and overseas expansion.” Do you agree or disagree? Justify your stand.	335
35	What are the major factors that motivate multinational companies to engage in cross-border M&A	336
36	Write a short note on Special Purpose Acquisition Companies (SPACs) OR Can a company with no commercial operations raise capital via an IPO? Discuss.	336

Chapter 15: Startup Finance

1	What is Startup Finance?	338
2	What is a startup to avail the benefits of government scheme? OR Explain the conditions that need to be met for considering an entity to be called as a Startup.	338
3	NIYA Healthcare is a proprietary concern engaged in the manufacture and development of Pharmaceutical products since last five years.	339
4	Compare and contrast start-ups and entrepreneurship. Describe the priorities and challenges which start-ups in India are facing.	340
5	What are the sources of funding for the Startups? Or Non-Bank Financial Sources are becoming popular to finance start-ups. Discuss	341

6	Peer – to – Peer Lending and Crowd funding are same as traditional methods of funding. Do you agree? Justify your stand.	342
7	An individual attempts to found and build a company from personal finances or from the operating revenues of the new company. What this method is called? Discuss any two methods.	343
8	Explain Pitch Presentation. List the methods for approaching a Pitch Presentation.	344
9	Explain the basic documents that are required to make up Financial Presentations during Pitch Presentation.	345
10	What do you mean by the term Unicorn? State the features a Start-up should possess to be referred as a Unicorn	346
11	Write short notes on Angel Investors Or Briefly explain how Angel Investors finance the Startups.	346
12	Write short Note on Venture Capital Financing.	347
13	Explain the advantages of bringing venture capital in the company.	348
14	What are the characteristics of venture capital fund? Or Venture Capital Financing is a unique way of financing Startup'. Discuss.	348
15	Explain various stages of Venture Capital Funding. Venture Capital Funding passes through various stages. Discuss	349
16	Explain Indicative Risk Matrix of each stages of funding for Venture Capital Financing.	349
17	Discuss the Venture Capital Investment Process.	350
18	"In Deal Structuring, in many structures to facilitate the exit, the Venture Capital may put a tag-along clause". What do you mean by that clause? Explain Deal Structuring and Exit Plan to Venture Capital Investment Process.	351
19	Explain the structure of Venture Capital funds in India. Or "A Limited Partnership Entity, in India, is not recognized for the purpose of Venture Capital Fund." Do you agree? Briefly explain the structure of Venture Capital Fund in India.	351
20	Explain alternatives available to offshore investors for making investments in Venture Capital Funds in India.	352
21	Apart from the support from government, there are quite a few other reasons why India became a sustainable environment for start-up to thrive in. What are the other reasons?	353
22	What do you mean by Succession Planning?	354

23	Succession planning is a good way for companies to ensure that businesses are fully prepared to promote and advance all employees— not just those who are at the management or executive levels. Explain the above statement.	354
24	What are the four steps involved in creating a business succession strategy, and how does each step contribute to ensuring the successful transition of leadership within an organization, particularly in a family-owned business?	355
25	What are the key challenges faced by startups in implementing succession planning, and how do factors such as founder mindset, early growth stages, and the central role of founders contribute to these challenges?	356
26	Explain the term Business Model with help of an example.	356
